Explorations.

The township lines show how far the public surveys have progressed in the several land States and Territories.

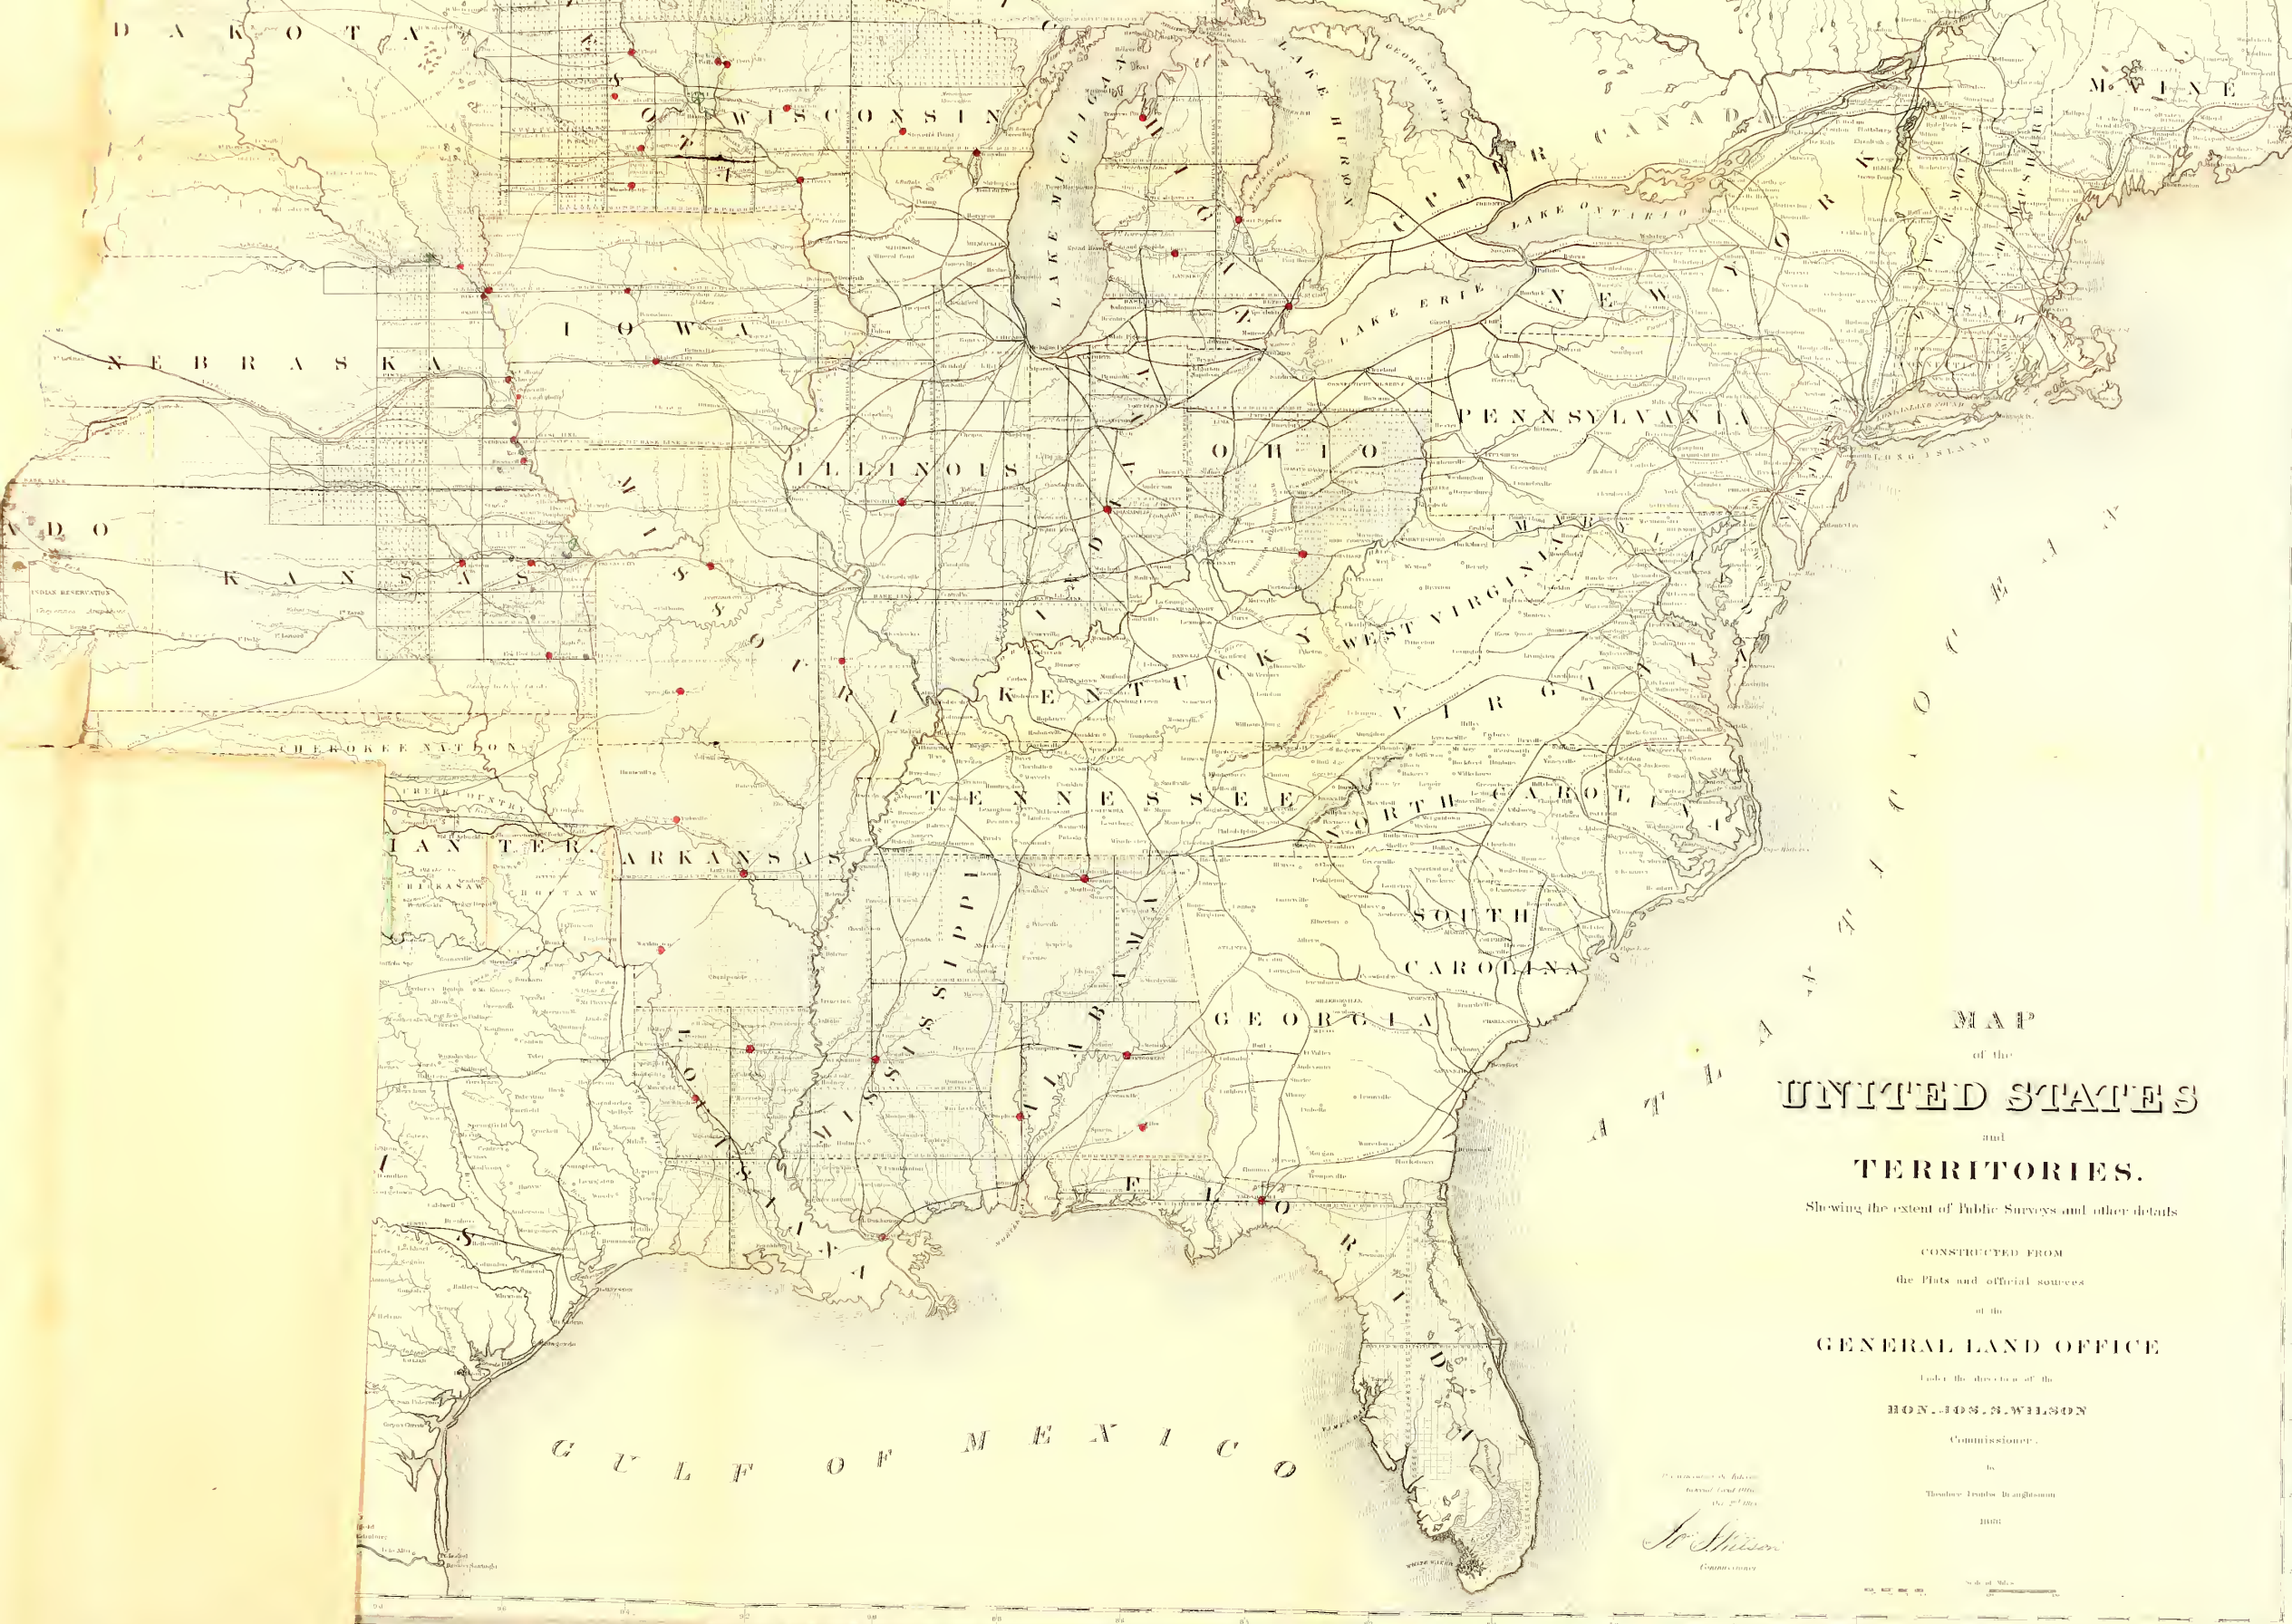

Boundaries were the limits of the surveys marked with a + and all townships contained within the + either have been surveyed, or have been marked with the cross as yet unsurveyed.

Townships not yet surveyed are designated by a -

The dotted lines indicate proposed surveys.

This map being especially designed for Government use, in connection with the public surveys for the sale of the same, and in accordance with the administrative scale drawn upon a rectangular projection.

Although the Township lines of the Government surveys are extended over nearly the whole of the States of Nevada, Arizona, Louisiana, and Florida, large portions of these States are covered with irregular private claims. The same is also true to some extent in Arkansas, and some of the other States.
